## ABOUT US

In 1995, INOVACAPS was born as a pioneer company in the manufacture of high quality personalized caps in Mexico.

Thanks to our materials and care in manufacturing processes, we have achieved products that transcend beyond just an accessory.

With more than 25 years of experience in the market, we have collaborated with various brands to accommodate their ideas on everybody's head.

## MISSION

Be the difference to transform your ideas into a reality. Offering a unique product with innovation according to the needs of each client.

## VISION

Be the leading company in our industry.

Consolidate our brand as the best option.

Expand and cross borders through our products, providing innovation, quality and service.

## QUALITY POLICIES

**INOVACAPS** is committed to its clients in the textile sector to generate solutions and cover their needs with quality products. In addition, to comply with the legal requirements and the requests of our clients, generating a continuous improvement of the quality management system and increasing the satisfaction of our clients.

Have innovative technologies for the purchasing, storage and distribution processes of our products, to promote business continuity.

Have defined the responsibilities of each person in the organization that help to achieve the established objectives.

# REDEFINE YOUR STYLE AND DESIGN YOUR CAP FROM A VARIETY OF DIFFERENT OPTIONS!

## 01 CROWN

Is the main part of the cap. It's divided by panels or segments. Caps may vary from 5, 6, 7 etc. Each of our cap models has a different style that you can choose for your project.

*Models available from pages 12 to 23.*

## 02 FABRICS

Materials can always be chosen and adapted according to your project and specifications, whether you are looking for a fresh, light, quick-drying material or something more exclusive, you may find it in our materials section.

*Models available from pages 24 to 29.*

*Note: If your project requires a material that is not in our catalog, do not worry, talk to our commercial advisor to work a sample with the material you need.*

## 03 VISOR

Basic choices for a visor are usually flat or curved, however, select the best option for your project!

*Models available from pages 35 to 37.*

# 04

## CLOSURE

It's the part that allows us to adjust the cap. Find the best option.

*Models available from pages 38 and 39.*

# 05

## DECORATIONS

The applications will make your cap unique. Whether you want to place your logo, letters or insignia will make your design shine. Discover the endless possibilities!

*Models available from pages 30 to 35.*

# 06

## INTERIOR

The interior of your cap can be completely personalized, the limits are set by your imagination.

**INOVACAPS®**

# FACTORY CAPS

**MINIMUM 150 PIECES PER DESIGN, MODEL AND COLOR.**  
*... since everything is made to order and designed for each customer.*

**#WE  
#ARE  
INOVACAPS**

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## PILOT

The pilot cap is a classic model thanks to its simple shape. The pilot cap can be made of various materials without losing its structure, it has a rigid support at the front that avoids deformation and gives an aesthetic shape. The closure can be chosen depending on the final touch you want to give to each project.

**PANELS:** 6

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Preformed curve

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: buckle strap, velcro or plastic.

---

## PILOT WITH MESH

The pilot cap with mesh is a model that offers endless versions thanks to the combination of materials. It provides a rigid support at front that avoids deformation and gives an aesthetic shape, the closure can be chosen depending on the final touch you want. This is an all time favorite model for outdoor activities.

**PANELS:** 6

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Preformed curve

**SIDES/BACK:** Mesh

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: velcro or plastic.

\*Each color is a standard representation and is subject to color variation by fabric roll or materials.

## GAP

The Dap cap is another of the classics, it is very comfortable and soft, its entire construction is made of fabric, it is a cap without structure, the shape is adjusted to the head, it can be made in various materials. The closure can be chosen depending on the final touch you want. It is a versatile cap that provides a casual vibe.

**PANELS:** 6

**SUPPORT:** No front support

**VISOR:** Preformed curve

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: buckle strap, velcro or plastic.

---

## FITTED

Known as fitted cap, this cap is closed at the back, it is comfortable and adapts to your head thanks to the internal elastic sweatband and stretch fabrics, this allows the one size fits-all particularity. Sizes available are S/M, M/L, L/XL.

**PANELS:** 6

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Preformed curve

**EYELETS:** Embroidered

**CLOSURE:** Not required

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## 5 PANELS

The 5-panel cap is a model that is seamless at the front panel, this allows more space for applications. Made of various materials without losing its structure, the rigid support at the front avoids deformation and gives an aesthetic shape, the closure can be chosen depending on the desired style.

**PANELS:** 5

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Preformed curve

**EYELETS:** Embroidered on the back and sides

**CLOSURE:** To choose. Recommended choices: Buckle strap, velcro or plastic.

## 5 PANELS WITH MESH

The 5-panel cap is a model that is seamless at the front panel, this allows more space for applications.

It has a rigid support at front that avoids deformation and gives an aesthetic shape, the closure can be chosen depending on what style you want.

**PANELS:** 5

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Preformed curve

**SIDES/BACK:** Mesh

**EYELETS:** Not required

**CLOSURE:** Recommended choices: Buckle strap, velcro or plastic.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## SNAPBACK 6 PANELS

The snapback cap is one of the favorites, this model is very diverse and can work as an urban style or for sports projects as well, all thanks to its flat visor. Available in various materials without losing its structure, gabardines or cashmere are highly recommended, it has a rigid support at the front that avoids deformation and provides the shape, the closure is usually plastic, however, the choice is up to the client and the project.

**PANELS:** 6

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Flat visor

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: Velcro or plastic.

---

## SNAPBACK 5 PANELS

A variable of the SNAPBACK model with the front fused into a single section or panel, leaving it in 5 panels. It provides a greater free space of seams or backstitches in the front that facilitates and opens the possibility of placing some applications such as screen printing.

**PANELS:** 5

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Flat visor

**EYELETS:** Embroidered on the back and sides.

**CLOSURE:** To choose. Recommended choices: velcro or plastic.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## 7 PANELS

The 7-panel cap is an innovative model, particularly for fashion projects, due to its long section in the center complemented with smaller front and side panels; this shape is very trendy. Various materials such as gabardines or cashmere are recommended and can be used without compromising its structure, it has a rigid support at the front that avoids deformation and provides the shape.

**PANELS:** 7

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Flat visor

**EYELETS:** On the sides

**CLOSURE:** To choose. Recommended choices: velcro or plastic.

---

## CAMOUFLAGE WITH MESH

The camouflage mesh cap, a favorite thanks to the camo print. With a rigid support at the front that avoids deformation, the closure can be chosen depending on the project's design, this model has become the ultimate favorite for outdoor activities.

**PANELS:** 6

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**SIDES/BACK:** Mesh

**VISOR:** Preformed curve

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: velcro or plastic.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## PILOT JUNIOR

This cap is a classic model adapted for children between 5 and 12 years old. Various materials can be used without losing its structure. (It can also be made in mesh on the sides and back)

**PANELS:** 6

**SUPPORT:** Rigid at the front (optional)

**VISOR:** Preformed curve

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: Buckle strap, velcro or plastic.

---

## PILOT BABY

The baby pilot cap is the classic model adapted for babies between 5 months and 1 year old. Made of various materials without losing its structure. (It can also be made in mesh on the sides and back).

**PANELS:** 6

**VISOR:** Performed curve

**EYELETS:** Embroidered

**CLOSURE:** To choose. Recommended choices: velcro or plastic.

\*Each color is a standard representation and is subject to color variation by fabric roll or materials.

## 5 PANELS JUNIOR

The junior 5-panels cap is the modern model adapted for children between 5 and 12 years old. Made in various materials, highly recommended in gabardine or cashmere, it has rigid support at the front to avoid deformation and custom closure. (it can also be made in mesh on the sides and back)

**PANELS:** 5

**SUPPORT:** Rigid at the front (*BUCKRAM*)

**VISOR:** Preformed curve (optional)

**EYELETS:** Embroidered on the back and sides

**CLOSURE:** To choose. Recommended choice: velcro or plastic.

---

## 5 PANELS BABY

This 5-panels cap is a model adapted for babies between 5 months and 1 year old. (It can also be made in mesh on the sides and back)

**PANELS:** 5

**VISOR:** Preformed curve (optional)

**EYELETS:** Embroidered on the back and sides

**CLOSURE:** To choose. Recommended choices: plastic or velcro.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## STREET

The street cap is a youthful model, it has two side panels that form a half circle and metal eyelets, two central panels and a front panel with medium support. Made in various materials such as gabardines or cashmere, the recommended closure is a clip with rigid band, however it is left to the customers choice.

**PANELS:** 5

**SUPPORT:** Mid front

**VISOR:** Flat with trim

**EYELETS:** On the sides

**CLOSURE:** To choose. Recommended choices: Plastic or clip.

---

## EUROPE

The Europa cap is a model that provides both a youthful and sporty vibe, it has two side panels that form a half circle, two central panels and one front panel. Various materials can be used, however the most common is microfiber. It can be sublimated and also it has a fast drying feature, the recommended closure is usually clip, however this can change depending on the project.

**PANELES:** 5

**SUPPORT:** No front support.

**VISOR:** Curved

**EYELETS:** Not required

**CLOSURE:** To choose. Recommended choices: plastic or clip.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## SPEED

The SPEED cap is a comfortable and light model due to its ideal structure for sports. It is usually made of lightweight, quick-drying materials such as microfiber, along with a soft textile mesh.

**PANELS:** 6

**SUPPORT:** No front support

**VISOR:** Preformed curve

**EYELETS:** Not required

**CLOSURE:** To choose.

Recommended choices: velcro or clip.

---

## SPORT VISOR

The SPORT visor is ideal for sports and outdoor events. It is usually made of microfiber or dryfit since they are fabrics that can be sublimated, the closure can be chosen, the most common is velcro for quick adjustment.

**PANELS:** 3; 1 high crown front and 2 sides

**VISOR:** Preformed curve

**CLOSURE:** To choose. Recommended choice: velcro.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## ELASTIC VISOR

The elastic visor is one of the favorite pieces for marathons and sporting events, it is usually made of microfiber or dryfit since they are fabrics that can be sublimated, it has aesthetic trim details. Its elastic makes it a comfortable and adaptable model.

**PANELS:** 1 mid front with trim

**VISOR:** Preformed curve with trim

**CLOSURE:** Adjustable elastic.

---

## DINAMO VISOR

The dynamo visor is one of the favorite pieces for sporting or university events, it is usually made of microfiber or dryfit since they are fabrics that can be sublimated, another peculiarity is that this visor has a towel lining, the closure can be of your choice, the most common is velcro for quick adjustment.

**PANELS:** 1 mid front with trim

**VISOR:** Preformed curve

**CLOSURE:** To choose. Recommended choice: velcro.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## LEGIONARY

The legionary cap is a model designed for outdoor activities. It can be made of various materials, however, the most common is microfiber because of its lightness and quick-drying quality. It is a comfortable and light cap that also provides protection to your neck.

**PANELS:** 6

**SUPPORT:** No front support

**VISOR:** Preformed curve

**EYELETS:** Embroidered

**NECK FLAP:** With trim

**CLOSURE:** Adjustable clip.

---

## LEGIONARY PLUS

The legionary plus cap is a model designed for outdoor activities, its peculiarity is its extra large visor that covers more of the UV rays. It can be made of various materials, however, the most common is microfiber due to its lightness and quick-drying quality. It is a comfortable and light cap that also provides protection to your neck.

**PANELS:** 6

**SUPPORT:** No front support

**VISOR:** Extra large preformed curve

**EYELETS:** Embroidered

**NECK FLAP:** With trim

**CLOSURE:** Adjustable clip.

*\*Each color is a standard representation and is subject to color variation by fabric roll or materials.*

## SAFETY CAP

The safety cap is designed for people who do field-related activities, this cap protects you from UV rays and its safety features helps you to prevent accidents, its mesh is made out of a fiberglass composition that provides the correct ventilation and prevents cuttings. Usually made of microfiber in different neon tones so it will be spotted in the middle of the fields.

**PANELS:** 5

**SUPPORT:** No front support.

**VISOR:** Curved

**EYELETS:** No required

**NECK FLAP:** Wraparound with trim

**MESH:** Safety mesh in front

**CLOSURE:** Adjustable clip

---

## THE NUN

This cap model has two side panels that forms a half circle, two central panels and a front panel as well as a neck flap with a trim that you can attach to the front with a velcro for UV protection.

Manufactured in various materials, highly recommended in microfiber because of its quick-drying quality.

**PANELS:** 5

## TEXTILES FOR THE MANUFACTURE OF CAPS

In the manufacture of our caps, we use a careful selection of the highest quality textiles, both domestic and imported, designed to offer durability, comfort, and excellent presentation. Each material has been chosen for its resistance, finish, and optimal performance in manufacturing and embroidery processes, guaranteeing a professional-grade final product.

Our variety of fabrics allows us to adapt to different styles, uses, and needs, from lightweight and breathable options to more structured and robust fabrics. However, it is important to note that not all fabrics are available in the same range of colors, as availability may vary depending on the material, supplier, and season.

Your advisor will accompany you throughout the process to recommend the ideal fabric, considering the type of event, your company's line of business, and fashion trends, ensuring that your cap reflects exactly the image you want to project.

\*Fabric colors vary depending on the availability of materials from suppliers at the time of order.

Each color is a standard representation.

# MANUFACTURING PROGRAM

## SERVICE:

Inovacaps manufacturing program seeks to provide each of our customers with a quality product that satisfies their needs.

## PRICES:

Prices are variable depending on the type of cap, material, application, etc.

Price quotes can be requested and communicated via e-mail or WhatsApp.

## MINIMUM:

Minimum production is 150 pieces per model, desing and color.

*Note: If a new mold is required, the minimum number of pieces is 1,500. Check with your adviser\**

## DELIVERY TIMES:

Delivery times range from 30 to 45 business days.

Note: Important to consult with your commercial advisor to see the availability on the agenda as well as establish a date for the initial payment.

## PURCHASE CONDITIONS:

50% advance payment and 50% before shipping.

# PROGRAMA DE MUESTREO.

## SERVICE:

The sampling program offers the customers the opportunity to experience the manufacturing process of their cap, this way they can assure if all expectations are met and then place the order.

## PRICES:

Prices are variable depending on the type of cap, material, application, etc.

Note: Price quotes can be requested and communicated via e-mail or WhatsApp.

## MINIMUM:

Due to the high demand of the sampling area, Inovacaps limits each client to manufacturing a maximum of 3 physical samples. This in order to offer better service and delivery time.

*If color is required, Inovacaps can provide fabric samples for your review.*

## DELIVERY TIMES:

Delivery times range from 2 to 3 weeks.

Note: Important to consult with your commercial advisor to see the availability on the agenda as well as establish a date from full payment.

## PURCHASE CONDITIONS:

100% paid.

**150**  
PCS

## What is the minimum amount required for production?

150 pieces per model, design and color.

## What is the production delivery time?

Estimated delivery time is approximately 30-45 business days.

Note: This will also depend on the production time schedule.

We have partial deliveries above 10 thousand pieces in order to optimize our service.

## Is the product guaranteed?

Our products are guaranteed for: Factory defects (*breaks, stains, tears, etc.*). Our returns policy extends to only 15 business days after delivery to the customer.

*Note: Our guarantees adhere to the AQL quality standard.*

## Are additional services provided?

We have professional designers who can help with your ideas, as well as a sampling area, sales advice, experts in punching, embroidery, screen printing and sublimation.

## Are physical samples available?

Yes, we have an area that is specialized in samples, this will provide you the attention and necessary service during the development process of your prototype(s).

## Do samples have a cost?

Yes, all samples have a cost and it depends on the type of cap you require. A commercial advisor will assist you with the price quotes at any time.

**2-3**  
**WEEKS**

## How long does it take to manufacture a sample?

Sampling times range from 2 to 3 weeks (depending on the processes involved in your project), the dates are scheduled once initial payment is settled.

## Do you carry out confidentiality contracts?

Yes, if your project requires it, we can sign a confidentiality agreement. However, we always respect the art and identity of each of the brands we work with.

## Who pays for the shipment of the production?

The customer pays for the shipment, however, we have agreements with different couriers in case the customer requires it, but we can also work with the customer's choice.

## How is the product package for delivering?

We carried two size boxes, one with the capacity for 150 pieces and the second one for 300 pieces. A master box has an individual box and in addition, the product is wrapped in a dust protection bag.

**MON TO FRI**  
**9AM-**  
**6PM**

## What are the business hours?

Our office hours are Monday through Friday, from 9:00 a.m. to 6:00 p.m.(CST).

## Can I have photographs of the manufacturing process of my cap?

Yes, we now have an exclusive photo and video service of the manufacturing process.
